

Exclusive Automation Platform Agreement

Reference: SAMPLE-HIGH-003 | Fictional test document

PARTIES	RapidScale Systems SARL (Provider) and Coastal Homes SARL (Client).
---------	---

1. Term

This agreement begins on 15 September 2026 and continues for 36 months. It renews automatically for additional 36-month terms. The Client has no right to terminate for convenience.

2. Price

The Client must pay a non-refundable upfront implementation fee of 120,000 MAD within five days of signature, before acceptance testing. All recurring charges may be increased by the Provider at any time.

3. Unilateral changes

The Provider may change the services, pricing, security controls, and these terms at its sole discretion. Continued use is deemed acceptance, and the Client has no right to reject a change or receive a refund.

4. Availability and data

The Provider gives no uptime commitment, backup commitment, recovery objective, or obligation to return Client data after termination. The Provider may reuse Client data for any commercial purpose.

5. Liability and indemnity

The Provider has no liability for loss of data, interruption, negligence, or third-party claims. The Client has unlimited liability and must indemnify the Provider against all claims, costs, and losses, including those caused by the Provider.

6. Suspension and termination

The Provider may suspend service or terminate immediately without notice. The Client remains responsible for all charges for the full 36-month term and has no termination right, including for repeated service failure.

7. Disputes

The Provider alone may choose the governing law, forum, and dispute procedure after a dispute arises. The Client waives any right to challenge that choice.

Accepted for testing purposes by both fictional parties.
